

Shea Butter Warmer Instructions

Place about 3-4 tbsp of New Mexico Soap's Unrefined Shea Butter into the bowl. Plug in, and then turn on switch. Heat bowl with Shea Butter on top of heating unit *just until melted*. **Be sure not to overheat**. Stir. Apply to skin and enjoy a luxuriating Shea Butter treatment!

- Place unit on a heat-resistant surface or hot pad.
- Place unit in a safe position to protect against accidental spillage of hot butter.
- Never move unit until butter has cooled and become hardened.
- Never allow cord to be in a position where the unit can be tipped over.
- Do not allow cord to hang over counter or table edge.
- Never use water, chemicals in this unit.
- This unit is not intended to be used for food or drinks.
- For indoor use only.
- Never submerge electric unit in water.
- Unplug and cool the unit when not in use or prior to cleaning.
- Keep out of reach of children or pets to avoid the risks of serious injuries.
- Do not leave unattended when in use.

Clean with mild non-abrasive cleaner and warm water. Glass container may be cleaned in dishwasher.
